TRANS-LIFT Pallet Truck, model TL 100 PT AC

TL 100 is a new Danish produced pallet truck for either standing or sitting driving.

The vehicle is made of heavy 40x40x4 RHS steel and 2 mm sheet metal.

The driving is regulated via a joystick or an ergonomic maneuvering handle.

The steering gear has an ergonomic correct hand wheel or an ergonomic maneuvering handle.

The standing platform is covered with a non-skid, shock absorbing rubber mat and is rubber suspended for maximal driver comfort.

Total width can be 760 mm or as desired.

Standard batteries are sealed 24V, 105ahp/5h maintenance-free, build in a cassette for quick replacement.

The built-in charger is automatic.

Optional accessories: truck seat, computer equipment etc.
