TRANS-LIFT Model TL 100 AC

TL 100 is a Danish produced vehicle for either standing or sitting driving.

The vehicle is made of heavy 40x40x4 RHS steel and 2 mm sheet metal.

The driving is regulated via a joystick.

The steering gear has an ergonomic correct hand wheel.

The standing platform is covered with a non-skid, shock absorbing rubber mat and is rubber suspended for maximal drivers comfort.

Total width can be 760 mm or as desired.

Standard batteries are sealed 24V, 105ahp/5h maintenance-free, build in a cassette for quick replacement.

The built-in charger is automatic.

Optional accessories: truck seat, computer equipment etc.

The vehicle can be build to accommodate all types of trolleys.

Technical specifications:

Steering/driving: Motor 24V, 1,2kW AC

Continuously variable transmission.

Electric “dead man’s” handle.

Batteries: 24v, 105ah/5h
